

# ARC250 *Basic & Pro*

## Software for Uniden BC250D and BC785D

ARC250 is a new range of Windows software products for easy programming and full remote control of the new Uniden BC250D and BC785D digital trunk scanners.

The screenshot shows the ARC250 software interface with a menu bar (File, Edit, View, Options, BC785D, Trunk, Search, Setup, Help) and a toolbar. Below the toolbar is a grid of trunk selection buttons: 7: Trunk 1, 8: Trunk 2, 9: HAM 2 meter, 10: HAM 70cm, D: Dummy, 1: Fire/MOH, 2: Police, 3: RCMP, 4: Misc/Works, 5: Rail/Marine, 6: Air/Ham. The main area is a spreadsheet with the following columns: Freq. (MHz), Tag, Trunk, Delay Time, Record, Beep Alert, PL/DPL, Lock Out, Attenuator, Mode, and Step. The spreadsheet contains 22 rows of data for various fire and police trunks.

	Freq. (MHz)	Tag	Trunk	Delay Time	Record	Beep Alert	PL/DPL	Lock Out	Attenuator	Mode	Step
1	142.5000	Edgar Data	On	2	On	Off	None	Off	Off	NFM	5.0
2	141.5250	Edgar Voice 1	On	2	On	Off	None	Off	Off	NFM	5.0
3	143.0850	Edgar Voice 2	On	2	On	Off	None	Off	Off	NFM	5.0
4	143.1600	Edgar Voice 3	On	2	On	Off	None	Off	Off	NFM	5.0
5	142.8150	Edgar Voice 4	On	2	On	Off	None	Off	Off	NFM	5.0
6	142.9650	Edgar Voice 5	On	2	On	Off	None	Off	Off	NFM	5.0
7	154.1000	C'wood Fire	Off	4	On	Off	None	Off	Off	FM	5.0
8	154.5200	Clearview Fire	Off	4	On	On	134	Off	Off	NFM	5.0
9	153.8000	New Tecumseh FS	Off	4	On	Off	156.7	Off	Off	NFM	5.0
10	158.2350	Adjala/Tos Fire	Off	4	On	Off	754	Off	Off	NFM	5.0
11	154.3700	Simcoe Cty Fire	Off	4	On	Off	None	Off	Off	FM	5.0
12	153.3050	Essa Fire	Off	4	On	Off	173.8	Off	Off	FM	5.0
13	159.4650	Tiny Twp Fire	Off	4	On	Off	110.9	Off	Off	FM	5.0
14	154.1300	Dufferin Fire	Off	4	On	Off	None	Off	Off	FM	5.0
15	155.4300	Medonte Fire	Off	4	On	Off	186.2	Off	Off	FM	5.0
16	155.4300	Severn Fire	Off	4	On	Off	114.8	Off	Off	FM	5.0
17	155.4300	155.430 CSQ	Off	4	On	Off	None	Off	Off	FM	5.0
18	152.3125	Rama Fire	Off	1	Off	Off	110.9	Off	Off	FM	7.5
19	157.5150	Orillia Fire	Off	4	On	Off	162.2	Off	Off	FM	5.0
20	152.4350	Vaughn Fire	Off	4	On	Off	None	Off	Off	FM	5.0
21	153.2150	Grey Cty Fire	Off	4	On	Off	None	Off	Off	FM	5.0
22	153.5300	Bracebridge Fire	Off	4	On	Off	None	Off	Off	FM	5.0

- Memory bank management: setup the 1000 memory channels easily in a spreadsheet type interface. Data can be imported from CSV, TXT or HTML files.
- Trunk management: setup the trunk id's and trunk tags.
- Setup trunk systems (Edacs, Motorola Type 1 & 2, LTR).
- Software fully support the Windows clipboard for easy copy/paste between applications.
- Easyfill option for quick setup of new memory banks.
- Automode: Program the preset settings for mode and step once for every frequency range. The software remembers these settings and can apply them automatically. The software already knows the bandplan that is programmed in your scanner.
- Extra DUMMY memorybank: For temporary data storage an extra dummy bank is available. The dummy bank is not send to the scanner.
- Webcatcher: Connect your Uniden BC250/BC785 to the Internet! The build in WebCatcher option makes it possible to read and import frequency data directly from any website using any internetbrowser.

### ARC250-BASIC:

- Enhanced editor for memory & search banks, trunk system settings and trunk system id's
- Virtual Control Screen for full PC remote control
- Virtual Control uses intelli-button interface: text of buttons changes automatically
- Build in WebCatcher

### ARC250-PRO:

ARC250-PRO adds these EXTRA options to ARC250-BASIC:

- Digital audio recording in WAV format (PC audiocard required)
- Search Range extender: add 200 custom programmable search ranges
- History log
- Log data to disk: frequencies, trunk id's and detected subtones
- Custom fonts/colors in Virtual Control

### ARC250 - Basic & Pro general:

- Software supports the BC250D and the BC785D
- Windows 95 / 98 / NT / ME / Win2000 / XP
- VGA Min. 800 x 600
- USB devices are NOT supported
- CDROM
- Editor for Search ranges
- Add text tags to every memorybank
- Easy copy/move/swap entire memorybanks/channels.
- Data can be exported to CSV data format
- Spacebar and double-click are used for easy data toggle
- Search and remove duplicate programmed frequencies
